Summer Term Newsletter   Year 6

English

In English we will focus upon Writing and editing skills to produce work of increasing quality, as the students move toward secondary school. The children will focus upon ensuring that they have developed the necessary writing skills to allow them to produce high-quality writing independently. The focus of the half term shall be sentence construction and composition, punctuation, spelling and handwriting.

.

Maths

During summer term, we shall continue to develop the range of mathematical skills and methods needed in Year 6. Our focus shall be upon applying reasoning and problem solving skills to a range of areas and topics within mathematics, along with developing the skills needed to prepare the students for the coming assessments.

Science

Over the final half term, Year 6 students will engage in a range of practical, fun scientific experiments and from these generate high-quality reports. Over the final weeks, the students shall continue to develop key scientific skills and knowledge that will prepare them for the more advanced Science work with which they shall engage in secondary school.

P.E.

Our focus is on developing flexibility, strength, technique and control through competitive games where we will also develop resilience and confidence.

Production

PSHE

This term we will be focusing on 'Empathy'. We will be exploring terms such as: '**Just(fair), Compassionate, Kind, Courteous, Unselfishness**

R.E.

In R.E. the children will be exploring the "Is anything ever eternal?" By using this question as a starting point, they shall evaluate the range of beliefs held around this complex topic.

Topic

Geography: We will be looking at maps of the UK and the world to locate countries, oceans and continents as well as describe and understand key aspects of physical and human geography.

History: We will be looking at a local history study-Chiswick. We will learn about why and how the area has changed right up to the present day.

Computing

Our focus will be on using search technologies effectively as well as designing programs that accomplish specific goals.

Music

We will be performing and evaluating music across a range of different genres. We will also be performing in our end of school production.
