

Summer Term Newsletter

Year 3

Whole School Value

Empathy

English

What better opportunity for using Roald Dahl's 'Charlie & the Chocolate Factory' to inspire some amazing writing? We will try out some recipes (instruction texts), write a non-chronological report and creating some eye-catching adverts.

Maths

We will continue to consolidate our understanding of the practical uses of maths when looking at measuring capacity, volume and space. We will also study Statistics, presenting and interpreting data in bar charts, pictograms and tables.

Science

We will continue the food theme, and explore the importance of nutrition and understand the function of a skeleton in vertebrates.

We will also study Forces and Magnets, finding out why we stay on the ground and how we can move objects without touching them.

P.E.

In P.E. we will focus on the ball and team skills needed to play football. We are also looking forward to Sports Day!

PSHE

We will be exploring Fairness, Forgiveness, Kindness, Courtesy and Unselfishness.

Scrumdiddlyumptious!

R.E.

We are learning to understand the Hindu belief that there is only one God who takes many different forms. We will also explore Sikhism, with a focus on the different ways in which Sikhs show their commitment to God.

Computing

We will be finding out what databases are used for and we will start to use Branching Databases to classify objects. We will learn the basics of quick and efficient typing as well as how to enter data into a graph. We will also find out what computer simulations are used for and have a go at creating our own.

Topic

Our topic 'Scrumdiddlyumptious!' naturally focuses on food. We will find out about food miles and Fair Trade products and why it is important to think about these issues today. We will look at the life of James Lind, a Scottish doctor who discovered that the use of citrus fruits would keep scurvy at bay in the Navy.

Art

We will be linking our art learning to our topic by exploring the art that can be made studying and using food.
