

Year 5 spelling word analysis example

Definition: a single unit or reference to one.

Noun: a single human being as distinct from a group.

Adjective: e.g. An individual flower blew in the wind.

Synonyms:

single, separate, discreet, independent, sole, lone

Antonyms:

combined, common, general, indefinite, mixed, ordinary, together

Sentences

Arthur was an eccentric **individual**, who enjoyed the company of books more than people.

Individually, wolves would struggle to survive but as a pack, they are unstoppable.

Individuality allows our society to be extremely diverse.

Prefix and suffix modification

individualistic
individuality
individually
individualisation
indivisualism

The above is a suggested structure for how children can complete their spelling homework, word analysis tasks.

This approach will force the students to analyse, understand and explore a word in much greater detail than they typically would and as such is a fantastic way to practice their spellings.
